Welcome to

International B2B Meetings on Cybersecurity

during Forum Incyber 2024

26-28 March 2024 (on-site) | Lille Grand Palais - France

Forum InCyber, organized since 2007 in Lille, is the **leading European event on Cybersecurity**, gathering more than 500 exhibitors and a wide range of experts and senior representatives of the security community.

The event relies on:

- a **TRADE SHOW** for buyers and suppliers of cybersecurity solutions to meet and network
- and a **FORUM** to foster reflection and exchanges among the European cybersecurity ecosystem.

The theme of this 2024 year's edition is: "Ready for AI?".

During InCyber Forum Europe 2024, Enterprise Europe Network organises, in partnership with the EDIH GreenPowerIT and Campus Cyber, a brokerage event with pre-arranged Face2Face meetings.

The matchmaking event brings together companies (buyers as well as suppliers) from a large number of European countries. This is a unique opportunity to **generate new business contacts and contracts**. The model is **time - and cost efficient** and result in business! Meetings will take place in a dedicated area and will be arranged in advance by means of this website.

This year, we are happy to offer **physical meeting days for the whole duration of InCyber 2024 (26-28 March)**. For those who are not able to travel or book on-site meetings, we offer the possibility to meet online between April 8th and 10th.

Attendance at this event is free of charge. However, you must be registered to attend to the main InCyber Forum 2024 event for the onsite meetings. [Register to attend Forum InCyber 2024](#).

For whom:

- SMEs and multinational companies
- Institutional and private purchasers
- Research centers and laboratories
- Investors

Topics:

-
- IoT / Cybersecurity of industrial systems
 - Cloud security / secure cloud
 - Data and hardware security
 - Anti-cybercrime
 - Threat intelligence / Data leaks detection
 - Security of SMEs
 - Smart and Safe City

Why should you participate?

Meet potential partners or costumers and expand your company's network within the European Cybersecurity industry.

- Find out about market trends and innovations
- Develop and/or strengthen business relationships
